

Summary: School: a little story about life and education (part 1)

The story begins in Montreal, Canada at the beginning of the 70's in the 20th century and ends at the beginning of the 90's. There is one main character, Gabriel, two secondary characters, Evelyn and John, and 23 other personages in this romantic tale about life and education. The main character is growing through the education system but also by life's experiences and the discovery of the wonderful Nature, especially the mountains, which give him inspiration and strength. Raised in the Catholic tradition especially in private schools, he realized that faith is also a matter of the heart. From divorced parents at a young age, he also realized that he is never alone in the presence of God who by true spirit brings courage to carry on. Life goes on. You will see that the author often uses these phrases: "Earth is rolling on. Time is running on.", which means that life is continually progressing and we have just to get with it. Sometimes, it is fun, and sometimes it is not.

The book itself is dedicated to all book readers (14+) who like romance but especially dedicated to teenagers to motivate them to succeed in school and also because they are the next generation. They are the ones who will become new leaders. A difficult part is also that they are changing physically and an energy is pushing them forward. This is why they have to think more and use as all the knowledge they can have while also putting their energy into physical activities such as sports and arts. They have to be moral, to have a good conduct, to respect one and another, to love and to be loved, man or woman. They learn to become adult and responsible with hope for a brighter future. This is not always easy. They must be motivated, disciplined, studied and learned, but they need to know that when required, help is always there. Help comes from those who have more knowledge, more wisdom, more experience as parents, family relatives, teachers, school leaders, etc, and from good books.

School: a little story about life and education (part 1) as the title says, is just a little story about Gabriel from Montreal, Quebec. You also have your own story, your own life, so make the best of it and please put God in it because He loves you and will give you inspiration when you ask Him by prayer. He comes to you through the spirit, through Nature and through willing and helpful people around you.

Be one with yourself. Let your mind be at peace.

Good luck and success in all your endeavors.

PS: the book is a trilogy.
